NOTES

1. The format and contents of this publication have been changed with this volume to provide lists of all officers on active duty. Active duty officers are shown in three categories: (1) Lineal list officers as defined in Title 10, U. S. Code, section 5504; (2) Officers of the Naval Reserve assigned to active duty in connection with training, administration, and recruiting the Naval Reserve (TAR's); and (3) Women officers appointed under Title 10, U. S. Code, section 5590.

2. The lineal numbers assigned to lineal list officers consist of a whole number and a sub-number. Use of the sub-number permits officers to be added to the official lineal list as maintained in the Navy Department without requiring renumbering of the list each time a gain occurs. Lineal numbers may not be consecutive but they always will be sequential. For example, an officer with a lineal number and sub-number of 8939–40 is senior to the officer with a lineal number of 8939–82. An officer with a lineal number of 8396–95 would be senior to both.

3. Since TAR officers and women officers are not lineal list officers, it is necessary to indicate their precedence in relation to those on the lineal list. For TAR male officers, the lineal number of each officer's running mate is shown in columns 1 and 2. Thus, any TAR male officer ranks with but *senior* to the lineal list officer whose lineal number appears. For all women officers, the precedence mate's lineal number shown in columns 1 and 2 is the lineal number of the lineal list officer next *junior* to the woman officer.

4. The lineal numbers assigned herein become effective on 1 July 1958. These numbers are in lieu of signal numbers used in the past.

5. The star symbol (☆) printed immediately preceding the name indicates that the officer has been selected for promotion to the next higher grade. Attention is invited to the fact that some selectees will have been promoted by the time the Register becomes effective, or will be promoted subsequent thereto, and that lineal numbers in these cases will not indicate the proper lineal position.

6. Source code shown in column 4 indicates the procurement source of officers as follows: 1—United States Naval Academy; 2—USN augmentee under provisions of the Act of April 18, 1946 (Public Law 347, 79th Cong.) or the Act of August 9, 1955 (Public Law 308, 84th Cong.); 3—USN officers appointed under the Act of August 13, 1946 (Public Law 729, 79th Cong.); 4—USN from source other than 1, 2, or 3 above; 5—temporary officer; 6—reserve officer.

7. The two digit number appearing in column five headed "Service Date" indicates the date from which an officer's commissioned service is deemed to have commenced for the purpose of determining eligibility for continuation on the active list or separation from the active list as defined in Title 10, U. S. Code, sections 6387 and 6388. This date is always 30 June of the year indicated. Service date is not applicable to temporary officers, reserve officers, warrant officers or women officers appointed under Title 10, U. S. Code, section 5590.

8. The running mate for any lineal list staff corps officer is the lineal list line officer not restricted in the performance of duty whose lineal number and sub-number is sequentially immediately ahead of the staff corps officer. The official running mate of all women staff corps officers is maintained in the Bureau of Naval Personnel.

9. On 31 December 1957 the junior unrestricted line officer for whom a vacancy existed under the permanent USN grade structure had a lineal number in each grade as follows: Rear Admiral 00029-76, Captain 01729-00, Commander 10838-00, Lieutenant Commander 22316-25, Lieutenant 34888-00. Permanent USN Staff Corps officers whose running mates are eligible for permanent promotion are also eligible.

10. The date shown in the column headed "Active Duty Base Date" in the precedence list is the constructive date active duty was first performed as a medical or dental officer.

11. The date shown in the column headed "Pay Entry Base Date" in the Index to Names is the date which reflects all service for pay purposes. In the case of medical or dental officers the date shown in this column includes any portion of medical school and internship or dental school while not a member of the Armed Forces.

12. Regular Navy and Marine Corps retired officers including those officers on the Temporary Disability Retired List are shown only in the index of this volume and do not appear in the main body. Future plans provide for publication of a separate volume listing retired officers only.

13. Errors or omissions should be reported by letter to the Chief of Naval Personnel, Attention Pers-E11.

14. Distribution of this publication is made to ships, aircraft squadrons and staffs in accordance with allowances published in BuPers Instruction 5601.1 of 10 December 1953, and to shore activities in accordance with allowances based on established needs. Commanding officers of ships and stations needing copies in excess of established allowances should make letter request to the Chief of Naval Personnel, giving justification of need for the additional supply.

15. For the United States Marine Corps, distribution of this publication is made to units and organizations in accordance with the List of Marine Corps Activities, Publications Allowance and Distribution, Part II (Rev. 10-57). Organizations needing copies in excess of established allowances should make letter requests to the Commandant of the Marine Corps (Code ABP), giving justification of need for the additional copies.
